

## SolarMax Energy Systems

# Italian high temperature solar system manufacturer

## Overview

---

When did Italy start a solar energy program?

In July 2005, the country started its first “Conto Energia” program to support the development of renewable power, and the result so far has been remarkable. In 2018, Italy added solar PV capacity of 437 MW, and its PV market grew by 7%.

Which is the largest solar power plant in Italy?

Along with this largest PV power station, there are also other large PV plants like Cellino San Marco with 42.7 MW capacity, San Bellino with 70.6 MW capacity, and Sant’ Alberto with solar capacity of 34.6 MW. Aside from conventional solar PV technology, Italy is also known for its developing concentrated solar power (CSP) technology.

Why is Italy a good country for solar energy?

Italy is considered the country of sunshine which makes the nation very favourable for the installations of solar energy production plants and farms. In Central-Southern Italy, the annual solar radiation can range from 4.7 kWh per square metre per day, and 5.4 kWh per square metre per day in Sicily.

Who is solar power SRL?

Solar Power S.R.L. is an Italian company that specializes in the design, installation, and maintenance of solar energy systems. With over 20 years of experience in the renewable energy industry, the company is known for its innovative, sustainable solutions and its commitment to environmental responsibility.

Does Italy have a solar market?

In 2018, Italy added solar PV capacity of 437 MW, and its PV market grew by 7%. The major driving factor in the Italian PV market has been solar rooftops, and the number of solar installation projects with more than 1 MW capacity

increased in in 2017 and 2018.

Who makes the fastest growing solar PV module?

Goldi Green Technologies. Goldi Green Technologies only began in 2011 with a 10 MW production capacity, but despite its humble beginnings, the company has become one of the fastest-growing solar PV module manufacturers. Tata Power Solar.
