

## SolarMax Energy Systems

# Jamaica Solar System Production

## Overview

---

The following are some of the larger installations currently connected to the grid: More than 20,000 Jamaican homes are expected to be powered by clean, affordable, renewable energy to be generated from the US\$61 million solar electricity plant, being built in Content District, Clarendon. Electricity produced by.

's electricity sector is dominated by non-renewable generators that use petroleum products, primarily Bunker C and automotive which generated 93% of the annual output for 2014. There is a small.

In June 2012 Energy Minister Phillip Paulwell disclosed that, approximately 16,000 homes in remote parts of the island which do not have.
