

### **SolarMax Energy Systems**

# Japan s microgrid energy storage power generation system

#### **Overview**

The New Energy and Industrial Technology Development Organization ("NEDO") and Sumitomo Electric Industries, Ltd. ("Sumitomo Electric") have completed a demonstration project in the U.S. State of California to improve the power quality of the grid, and have successfully achieved the major deliverables such as establishment of a microgrid on a commercial power distribution network inclusive of 66 customers, operation of a large-scale stationary storage battery, the Redox Flow Battery (RF Battery), and multi-use operation in both normal and emergency situations.

### Japan s microgrid energy storage power generation system

### Japan's Microgrid Research Status: Post-Fukushima Innovations ...

The 2011 Fukushima disaster fundamentally reshaped energy priorities, transforming this island nation into a global microgrid laboratory. But how exactly did catastrophe fuel technological ...
