

SolarMax Energy Systems

Kazakhstan communication base station power supply construction project

Overview

What did the Kazakh Telecom chair say about the project?

The Kazakhtelecom Chair also informed about the progress of constructing the Trans-Caspian fiber-optic communication line along the Caspian Sea bed between Kazakhstan and Azerbaijan. This project will increase international traffic transit through Kazakhstan, turning the country into the most important regional telecommunications hub.

How big is Kazakhstan's Energy network slated for modernization?

“The volume of networks slated for modernization spans 80,000 kilometers—equivalent to two equators,” said Sergey Agafonov, the chairman of the Kazakhstan Association of Energy Supply Organizations, highlighting the project’s scale.

How has Kazakhstan's energy infrastructure deteriorated?

Aging infrastructure and electricity losses Kazakhstan’s energy infrastructure has deteriorated, with over a third of power plants showing 70–90% wear and tear. This includes critical facilities such as combined heat and power (CHP) and state district power plants (GTPP), which have struggled to maintain consistent supply.

Does Kazakhstan have a unified power system?

Kazakhstan's unified power system operates in a normal mode, in parallel with the power systems of the Russian Federation and Central Asian countries. As of today, 220 power plants are operating in the country, including 144 RES facilities with a total capacity of 2.8 GW.

Why should we build 500 kV Karaganda - Astana substation?

Construction of 500 kV Karaganda substation and 500 kV overhead line Karaganda - Astana substation will first of all allow to increase reliability of Karaganda-Temirtau power hub, where large industrial enterprises of the

country are concentrated.

Should Kazakhstan address energy deficiency?

It is necessary to address Kazakhstan's energy deficiency and intensity of the economy, which in 2022 was 3.2 times higher than that of Organisation for Economic Co-operation and Development (OECD) nations and nearly double the global average.
