

SolarMax Energy Systems

Kosovo double-glass photovoltaic solar panels

Overview

Does Kosovo have a solar power plant?

As a result, the share of solar power in the energy mix of Kosovo will increase from 0.2% to 2.3%. The plant is expected to produce around 152 GWh of electricity and save 152,000 tonnes of CO2 annually. The EU co-funds the investments under Flagship 4 - Renewable energy - of the Economic and Investment Plan for the Western Balkans through the WBIF.

How will a solar power plant affect Kosovo's energy mix?

This will be the first large-scale solar photovoltaic plant in Kosovo and will increase installed capacities tenfold from 10.1 MW to 110.1 MW. As a result, the share of solar power in the energy mix of Kosovo will increase from 0.2% to 2.3%. The plant is expected to produce around 152 GWh of electricity and save 152,000 tonnes of CO2 annually.

Is the electricity sector in Kosovo based on coal-fired power plants?

The electricity sector in Kosovo* is almost entirely dependent on coal-fired power plants (97%). This investment project will install a solar photovoltaic plant of up to 100 MW capacity on former ash dump fields near Kosovo A thermal power plant.

Kosovo double-glass photovoltaic solar panels

Kosovo Photovoltaic Glass Industry Cluster Powering ...

Nestled in the heart of the Balkans, Kosovo is emerging as a surprising contender in the photovoltaic glass industry. With 2100+ annual sunshine hours and growing government ...
