

## SolarMax Energy Systems

# Large Mobile Energy Storage Station BESS

### HEAT DISSIPATION

Cold aisle containment,  
making optimal refrigeration effect;

## Overview

---

Since battery storage plants require no deliveries of fuel, are compact compared to generating stations and have no chimneys or large cooling systems, they can be rapidly installed and placed if necessary within urban areas, close to customer load, or even inside customer premises. Overview A battery energy storage system (BESS), battery storage power station, battery energy grid storage (BEGS) or battery grid storage is a type of technology that uses a group of in the grid to.

Battery storage power plants and (UPS) are comparable in technology and function. However, battery storage power plants are larger. For safety.
