Lesotho Power Plant Energy Storage Power Station Project

Overview

Where is a new power plant being built in Lesotho?

It is planned in Mafeteng, Lesotho. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the partially active stage. It will be developed in multiple phases. Post completion of the construction, the project is expected to get commissioned in June 2023.

Does Power Africa support the development of electricity generation projects in Lesotho?

Power Africa supports the development of electricity generation projects in Lesotho. Various firms have received U.S. Embassy support to move transactions forward. Power Africa's involvement in the country includes a containerized solar solution. Read more about the project below.

What are the potential energy resources in Lesotho?

Potential grid and off-grid renewable energy resources in Lesotho include hydro power, solar and wind energy. Biomass can also be considered where the material can be transformed to produce electricity either through direct combustion or via biogas. Hydro and pumped Storage.

Who controls the energy sector in Lesotho?

There are other Ministries or agencies with overarching influence over the energy sector: Ministry of Development Planning; Ministry of Finance; Ministry of Mining; Ministry of Public Works and Transport; Water Commission; and Lesotho Revenue Authority. Lesotho Electricity Corporation (LEC) generates, transmits, and distributes electricity.

Lesotho Power Plant Energy Storage Power Station Project

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW/115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
