

**SolarMax Energy Systems**

# **Liquid Flow Energy Storage Battery System**

## Overview

---

A flow battery is an energy storage system that uses liquid electrolytes to store and release electricity. It consists of two electrolyte solutions that circulate through separate compartments, allowing the chemical reactions to produce electrical energy.

## Liquid Flow Energy Storage Battery System

---

### Flow Batteries: What You Need to Know

Flow Batteries are revolutionizing the energy landscape. These batteries store energy in liquid electrolytes, offering a unique solution for energy storage. Unlike traditional ...
