

SolarMax Energy Systems

Liquid-cooled energy storage battery station 20wmh price

Overview

What is a populated 20ft NWI liquid-cooling energy storage container?

*Specification of Battery Rack The populated 20ft NWI liquid-cooling energy storage container is an integrated high energy density system, which consists of battery rack system (280Ah LFP cell), BMS (battery management system), FSS (fire suppression system), thermal management system and auxiliary distribution system.

What is a 20ft 2mwh battery container?

20ft 2MWh Outdoor Liquid-Cooled Li-ion Battery Container: Advanced thermal management, weatherproof design. Ideal for renewables, grid support, and peak shaving. Maximize safety & ROI. Individual pricing for large scale projects and wholesale demands is available.

What is liquid cooled battery storage system?

Liquid-cooled battery storage system based on prismatic LFP ESS cells 314 Ah with the highest cyclic lifetime Improved safety characteristics and specially optimised for the highest requirements on safety, reliability and performance. Suitable for industrial, utility, and grid serving applications, etc.

Liquid-cooled energy storage battery station 20wmh price
