# Lithium battery pack 6024G2

**TAX FREE**

## Overview

---

What is a lithium ion battery?

Lithium-ion batteries are a relatively newer technology that offer intelligence, communication, higher energy density and longer life, while eliminating the need for service and maintenance like watering and following complicated charging processes.

Are lithium batteries safe?

Yes, lithium-ion batteries are very safe when properly designed, manufactured, and when used as intended. Are there any special requirements or certifications needed to handle lithium batteries?

Yes, lithium batteries should ship in accordance with UN38.3 and hazmat guidelines. How do I return a battery?

.

How long does a lithium battery last?

Our batteries were designed to last more than 2,000 charge cycles depending on the model, and may last as long as the system. The average cycle life of a lithium battery is 3-5x more than a lead acid battery. What does SoC mean?
