

SolarMax Energy Systems

Lithium battery pack voltage-balanced adjustable power supply

Overview

What voltages are compatible with a lithium ion battery pack?

WIDE VOLTAGE COMPATIBILITY - Compatible with battery packs with voltages that range from 1.2 volts to 18volts (1S-15S) for nickel metal hydride or nickel-cadmium battery packs and Lithium-ion battery packs with voltages from 3.7 volts to 22.2 volts (1S-6S).

What is a rechargeable battery pack?

This portable rechargeable battery pack consists of a 60 watt hour lithium ion battery assembly and two DC/DC converters. The first DC converter allows the pack to be charged with a wide range of voltage inputs. The second allows the pack to deliver a user settable voltage to run equipment requiring 5volts to 19+volts.

What is included in a battery management system?

It is equipped with all hardware features to manage and maintain a battery without additional external components, including a built-in pre-charge circuit, on-board current measurement, mosfet power switches for battery disconnect, and a DC/DC power supply.

How many volts can a battery pack charge?

The charger section of the battery pack has a DC/DC converter with a wide input range. This means that the pack can be charged from a wide variety of sources. The input voltage for charging can be as low as 5 volts and as high as 24 volts.

Which battery types can be supported by a balanced cascading system?

Support all battery types such as ternary, iron lithium, lead acid, super capacitor; ♦ The equalization current is set independently in the range of 0.1~10A, independent of the cell voltage difference; ♦ Support balanced cascading to apply to more than 24 series of battery packs, in theory, can be

cascaded indefinitely;.

How many LiFePO4 batteries are left in stock?

Only 12 left in stock - order soon. 25 Amp Lithium LifePo4 Battery Charger, 14.6V/29.2V, 2-25A Adjustable Current, Compatible with 12V/24V Lead-Acid, Calcium, Gel, AGM Batteries, Multiple protections, Smart Battery Charger.

Lithium battery pack voltage-balanced adjustable power supply

Deye inverters and Deye batteries are more compatible.

Power Supply Rechargeable 24V Lithium Ion Battery

The LUMIRON Power Supply Rechargeable 24V Lithium-Ion Battery seamlessly integrates with our Light bars, Flexible LED Lights, and most 24V/12V/5V DC ...
