

## SolarMax Energy Systems

# Lithuanian container energy storage equipment company

## Overview

---

How many battery energy storage systems are there in Lithuania?

The four battery energy storage systems (BESS), 50MW/50MWh each, have been handed over by Fluence and are now providing services to Litgrid, the transmission system operator (TSO) in Lithuania. They followed a smaller, 1MW/1MWh pilot project to test the use case back in 2021.

Will Lithuania receive energy storage units in September?

The remaining battery parks will receive the energy storage units in September', said R. Štilinis. The energy storage facility system of 312 battery cubes - 78 each in battery parks in Vilnius, Šiauliai and Alytus and Utena regions - will provide Lithuania with an instantaneous energy reserve.

Which power plant provides energy storage in Lithuania?

Kruonis Pumped Storage Plant provides energy storage, averaging electrical demand throughout the day. The pumped storage plant has a capacity of 900 MW (4 units, 225 MW each). Kaunas Hydroelectric Power Plant has 100 MW of capacity and supplies about 3% of the electrical demand in Lithuania.
