

SolarMax Energy Systems

Luxembourg solar energy system quote

Overview

For a standard 5 kWp roof in Luxembourg, the total cost excluding grants is between €10,750 and €11,500. This price includes the supply and installation of solar panels, excluding options. It increases with the size of the installation. Is Luxembourg a space power?

Luxembourg first emerged as a potential space power five years ago. In February 2016, the Grand Duchy launched its Space Resources programme, a project to prepare for the future use of extraterrestrial minerals, water and gases to provide energy and materials for human activities beyond Earth.

What is Luxembourg's energy system like?

Luxembourg's energy system is characterised by high import dependence and reliance on fossil fuels. In 2018, 95% of its energy supply (100% of oil, natural gas and biofuels and 86% of electricity) were imported. It had the fourth-highest share of fossils fuels in TPES (78%) and the highest share of oil in TPES (60%) among IEA member countries.

Does Luxembourg have a good energy network?

Luxembourg has a well-developed energy network that serves all homes in the country. Creos operates and maintains Luxembourg's electricity network and gas pipelines. However, you'll receive your energy supply through only a handful of providers.
