

SolarMax Energy Systems

Maldives New Energy Storage Planning Project Bid Opening

Overview

What is the Maldives solar project?

The Maldives solar project is a 36 MW solar power project and 50 MWh of battery energy storage solutions development across various islands in the Maldives. It also includes grid modernization for the integration of variable renewable energy with the grid, which will be financed under the proposed AIIB loan.

What is the biggest new development project in Maldives?

The project, funded by an Indian grant of \$100 million and a Line of Credit of \$400 million is also the biggest new development project by India in its neighbourhood in recent years. The project, the largest in Maldives, will begin with the signing of the contract between the Maldives government and Indian infrastructure company AFCONS in Male.

What is the largest infrastructure project in Maldives?

The largest infrastructure project in Maldives will involve the construction of a 6.74 km long bridge and causeway link connecting Male to Villingli, Gulhaifalhu and Thilafushi. In a boost to ties, India and Maldives signed a contract on the mega Greater Male Connectivity Project (GMCP), the largest infrastructure project in the country.

How can the Maldives achieve “carbon neutrality” by 2030?

While ASPIRE project addresses the need to increase PV generation in Maldives through private sector investment, Maldives envisions an ambitious goal of “carbon neutrality by 2030” along with an immediate target for 2023 to increase the share of renewable energy by 20% compared to 2018 levels.

50 kWh/500 kWh Battery Storage System

Industrial and Commercial Energy Storage

- All in One**
Integrating battery packs
- High-capacity**
50-500kWh
- Degree of Protection**
IP54
- Operating Temperature Range**
-20~60°C (Derating above 50 °C)
- Intelligent Integration**
Integrated photovoltaic storage cabinet
- Rated AC Power**
50-100kW
- Altitude**
3000m(>3000m derating)
