

SolarMax Energy Systems

Mali solar panel greenhouse customization

Overview

How long does a solar power project last in Mali?

This project has an estimated lifespan of 25 years. / Mali is a landlocked country in the Sahel belt of West Africa where 80% of the population in the rural areas do not have access to electricity, while those with access are getting most of the electricity from diesel generators.

What is a greenhouse integrated PV (gipv) module?

Get in touch! Traditional greenhouses rely on external fossil fuel derived energy sources to power lighting, heating and forced cooling. Specially designed BiPV solar glass modules for greenhouses, Heliene's Greenhouse Integrated PV (GiPV) modules offer a sustainable alternative with no additional racking or support required.

Why should you choose solar innovations ® for Your Greenhouse & Conservatory?

Unlike most greenhouse & conservatory manufacturers, Solar Innovations ® provides all the necessary fasteners, silicone, and flashings for your project. These services help customers reduce installation time and cost, providing a high quality final product.
