

SolarMax Energy Systems

Mauritania Trough Solar Power Generation System

Overview

The Global Center on Adaptation (GCA) and African Development Bank (AfDB), through the African Adaptation Acceleration Program (AAAP), support the construction of a 1,500 km electricity transmission line, divided in three lots, and one solar plant (50 MW) in Mauritania, as part of the Desert to Power Initiative.

Mauritania Trough Solar Power Generation System

Mauritania: Rural electrification expansion via solar energy project

Mauritania's Ministry of Economy and Finance said this new phase of the rural electrification project will contribute to enhancing the capabilities of solar power plants, and ...
