

SolarMax Energy Systems

Mauritius Mobile Power Station BESS

Overview

Why is battery energy storage system being introduced in Mauritius?

The CEB is introducing a Battery Energy Storage System (BESS) on its network to arrest the fluctuation inherent to Variable Renewable Energy (VRE) systems. This is due to the increasing share of VRE in Mauritius' energy mix, as the country's energy transition to a low carbon economy gains momentum.

How will Mauritius transition to a low carbon economy?

Mauritius is transitioning to a low carbon economy, with the Central Electricity Board (CEB) installing the first grid-scale Battery Energy Storage System (BESS). This is the first of its kind in Mauritius and enables high capacity storage of renewable energy in the grid.

What is Mauritius' long term energy strategy?

The Government of Mauritius' Long Term Energy Strategy 2009-2025 aims to increase the share of renewable energy in our energy mix to 35% by 2025. This includes reducing the country's dependence on coal and heavy oil for electricity generation.

What is Mauritius aiming to reduce dependence on?

The Government of Mauritius' Long Term Energy Strategy 2009-2025 aims to increase the share of renewable energy in our energy mix to 35% by, reducing the country's dependence on coal and heavy oil for electricity generation.

How many BESS installations does the CEB have?

The CEB has two BESS installations of 2 MW power output each. One is installed at Amaury Substation and the other at Henrietta Substation.

What is the second phase of CEB's Bess project?

The second phase of CEB's BESS project will involve the installation of 14MW

BESS deployed in four main substations: Jin Fei (4MW), La Tour Koenig (2MW), Anahita (4MW), and Wooton (4MW). This phase is expected to be completed within 12 months.

Mauritius Mobile Power Station BESS

- ✓ 100KWH/215KWH
- ✓ LIQUID/AIR COOLING
- ✓ IPS4/IP55
- ✓ BATTERY 6000 CYCLES

Battery energy storage systems , BESS

Battery energy storage (BESS) offer highly efficient and cost-effective energy storage solutions. BESS can be used to balance the electric grid, provide ...
