

## SolarMax Energy Systems

# Mobile base station equipment distribution box

## Overview

---

What is a temporary power distribution box?

Temporary power distribution boxes and carts serve as hubs for connecting electrical loads. Power centers and portable power stations act as a combination transformer and distribution panel to regulate and distribute power from a 480V AC power source.

What are load master TM series portable power distribution boxes?

Load Master <sup>TM</sup> Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads. These temporary power distribution boxes feature 1, 3 or 4 adjustable circuit breakers, with a range of amperage and voltage ratings.

What is a portable power distribution cart?

Portable Power Distribution Carts, also known as our Original Series of power distribution boxes, provide a safe way to distribute power to power tools and other equipment that requires power on a job site or other location where utility power is not available or turned off.

What are temporary power distribution boxes & carts used for?

They are commonly used where power is needed on a temporary basis, such as construction sites, outdoor events, manufacturing facilities, and emergency situations. Temporary power distribution boxes and carts serve as hubs for connecting electrical loads.

How many amps does a power distribution box have?

Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and safe. Load Master <sup>TM</sup> Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads.

## What is a modular substation?

Modular substations by Federal Pacific offer a temporary or permanent power distribution solution and are custom engineered to your need and specifications. With 65 years of expertise in the power distribution industry, we are able to provide you with a reliable substation, designed for portability and rapid deployment.
