

## SolarMax Energy Systems

# Morocco Republic Energy Storage Project

## Overview

---

Is Morocco preparing to launch a 1.6 GW Bess project?

Morocco is preparing to launch a massive foray into clean energy with its ambitious 1.6 GW BESS projects. The National Office for Electricity and Drinking Water (ONEE) is expected to invite tenders for battery energy storage systems (BESS) totaling nearly 1,600MW.

What are Morocco's recent projects on solar energy?

Recent projects dedicated to solar energy include a loan from the Climate Investment Funds' Clean Technology Fund. This program, which is set to invest \$25 million, demonstrates Morocco's commitment to the Paris Agreement and its continued support in reducing greenhouse gases.

What are Morocco's Bess projects?

Morocco's 1.6 GW BESS projects represent a key step in its clean energy ambitions. The facilities will electrify key urban areas and firm up the grid. Although the initial focus is in the northwest, the government aims nationwide. Furthermore, the projects align with Morocco's ambitions to generate 52% of its electricity from renewables by 2030.
