Overview

Does Namibia have a bulk fuel storage facility?

Yes, the Government of the Republic of Namibia is in the final stages of constructing a bulk fuel storage facility in Walvis Bay. This facility, with a capacity of 75 million liters, will store ULP '95, Diesel 50ppm, HFO, and Jet Fuel. NAMCOR has been appointed as the operator of this facility.

What is cleanenergy solutions Namibia?

Cleanergy Solutions Namibia is committed to advancing hydrogen technology through the Hydrogen Academy. This crucial initiative fosters local expertise and trains future professionals in all aspects of hydrogen production and its applications.

Is Namibia a good choice for green hydrogen production?

Namibia, a stable country, presents a promising emerging market opportunity for green hydrogen, fully supported by the government. Benefiting from some of the world's finest solar resources, Namibia's abundant sunshine makes it an optimal choice for green hydrogen production.
