

## SolarMax Energy Systems

# New Zealand lithium titanate battery energy storage container price

## Overview

---

Who are Titan battery energy storage systems?

Which is where TITAN's battery energy storage systems come in. TITAN are veterans of the shipping container market, and over the past 35 years have become a leading provider of secure, robust containers for shipping, storage, refrigeration and offshore use. Today, we are also a name you can rely on for safe battery storage.

What is a lithium battery energy storage container system?

lithium battery energy storage container system mainly used in large-scale commercial and industrial energy storage applications. We offer OEM/ODM solutions with our 15 years in lithium battery industry.

Why should you choose a lithium-ion battery storage container?

Flexibility and scalability: Compared with traditional energy storage power stations, lithium-ion battery storage containers can be transported by sea and land, no need to be installed in one fixed place and subject to geographical restrictions.

How do I store a lithium battery?

Safely store lithium and other batteries in a rugged metal 'vault' that helps protect product, staff and customers. Call us on: 0800 484 826 Weekdays from 7.30am to 4pm. Huge New Zealand-wide network of depots to keep your delivery costs down. Small to large containers. Plus, high cubes, offshore containers and more.

Which shipping containers can I rent in New Zealand?

TITAN's range of shipping containers to rent is one of the widest in New Zealand. As well as tough containers for storing batteries, we have: Double-door containers – also known as tunnel containers. Open sided containers – for easy access from the side. Open top containers – a lid-free option for bulky

loads.

What is a Titan container?

A TITAN container has multiple uses. Built to last for decades and equipped with a reinforced floor capable of carrying 30 tonnes, a standard 20ft or 40ft shipping container or storage container is the ideal solution whenever you need to store potentially hazardous batteries, such as those containing lithium.
