New Zealand sells energy storage

Overview

Who is launching New Zealand's largest battery energy storage system?

WEL Networks and Infratec are proud to announce the launch of New Zealand's largest Battery Energy Storage System (BESS) with commissioning underway.

Where can I find information about New Zealand's first large-scale battery storage system?

If you require further searching capabilities for announcements please email: data@nzx.com Construction of New Zealand's first large-scale grid battery storage system is now complete, with Meridian Energy's Ruakākā Battery Energy Storage System (BESS) being officially opened in a ceremony later today.

Which energy company is building New Zealand's first grid-connected battery energy storage system?

Meridian Energy is building New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakākā on North Island. Paris, January 10, 2023 – Saft, a subsidiary of TotalEnergies, has been awarded a major contract by Meridian Energy to construct New Zealand's first large-scale grid-connected BESS.

Does Saft offer a battery energy storage system for New Zealand?

Saft executive vice president for energy storage solutions Hervé Amossé add: "Saft is proud to provide this first Battery Energy Storage System for New Zealand in the Waikato. We are excited to start this operation phase of the battery for which we will continue to support our partners.

How much does a battery cost in New Zealand?

The mean charging spot price was \$123/MWh and the median was \$132/MWh. As New Zealand electrifies, more grid-scale batteries will support the growing

renewable energy supply. Meridian Energy is building a 100MW (200MWh) battery near Ruakākā in sunny Northland. This battery is expected to be commissioned in September 2024.

Is New Zealand a key market for storage solutions?

Power Electronics NZ Ltd operations director Brent Sheridan sees New Zealand as a key market for storage solutions with future generation growth primarily being led by solar and wind technology. “Power Electronics are proud to be the suppliers of inverters for this project.
