

## SolarMax Energy Systems

# **New energy liquid-cooled energy storage battery Cabinet additions**

## Overview

---

What is a liquid cooled energy storage battery container?

Long lasting, battery energy storage system. Liquid-Cooled ESS Cabinet Liquid-cooled energy storage battery container is an integrated high-density energy system, Consisting of battery . PRODUCT SPECIFICATION Composition Of . Compact : 1.4m<sup>3</sup> footprint.

What is an all-in-one battery energy storage system?

This comprehensive system ensures the safety of both equipment and personnel at all times. All-in-one battery energy storage systems are pre-installed at the factory, significantly reducing on-site commissioning time. Upon arrival, the system can be easily integrated into the grid, allowing for quick and seamless deployment.

What is a battery module made of?

The external casing is made of metal covered by insulating materials. For example, the top cover is made of PP, the bottom base is made of aluminum. The copper bars and screws are connected internally to prevent short circuit to ensure the electrical safety of the battery module. Each battery module has 8 temperature detectors.
