

SolarMax Energy Systems

Nordic lithium battery station cabinet manufacturing integrated system

Overview

Who is Nordic batteries?

Nordic Batteries is a company that assemble and custom lithium battery and energy storage solutions. With market and technical expertise, it provides solutions that drive the green transition in key industries such as marine and demanding industrial applications.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

Why is Norway a leader in battery manufacturing?

As a pioneer in the clean energy sector, Norway has also shown strength in battery manufacturing. As the global demand for sustainable energy solutions grows, Norwegian battery manufacturers are at the forefront of this change.

When will Beyonder start producing lithium-ion batteries?

The company launched a pilot production line in 2021 for lithium-ion capacitors, batteries that provide high power output and can be recharged quickly, making them suitable for use in heavy machinery or on the power grid. In 2024, Beyonder plans to begin full commercial production.
