Northern Photovoltaic Energy Storage

Overview

What is northern Orchard solar PV PPA?

This Northern Orchard Solar PV PPA meets the RPS program's statutory goals as set forth in Public Utilities Code 399.11 in that it displaces fossil fuel consumption within the state, promotes stable electricity prices, and improves environmental quality while pursuing a goal of developing a diversified and balanced energy generation portfolio.

What is NEP micro energy storage photovoltaic hybrid inverter?

The world's first exclusive technology NEP releases micro energy storage photovoltaic hybrid inverter! NEP micro energy storage photovoltaic hybrid inverter officially debuted at Intersolar As a trailblazer in the photovoltaic inverter domain, NEP has recently unveiled the world's first micro-energy storage inverter, garnering global attention.

What information do I need to connect energy storage & generation equipment?

Details of any other electrical equipment (if applicable) e.g., motors, welders, air source heat pumps, ground source heat pumps, electric vehicle charge points. Status of planning permission if required. Submit your application to connect energy storage and/or generation equipment to our network.
