

SolarMax Energy Systems

Off-grid solar system 5kw

Overview

Choose from a selection of 5kW solar kits with string inverters, microinverters and SolarEdge inverters, as well as ground mount options. We sell both grid-tie and off-grid solar kits. Consider hiring a local contractor or installing your own solar panel kit for additional savings! .

Variables like weather, temperature, the age of your system and whether your panels are heavily soiled can affect how much power your.

The number of solar panels required to generate 5 kilowatts of energy hinges on the efficiency of your panels. Typically, you would need about 18.

A 5kW solar kit from GoGreenSolar requires about 299 square feet of space. Solar panels with string converters need to be grouped together and facing the same direction. You'll want to consider whether this option is the right choice for you or if you'd be best served.
