Overview

What are energy standards?

Energy standards deal with the production, generation, and distribution of energy from a range of sources including both renewable and non-renewable.

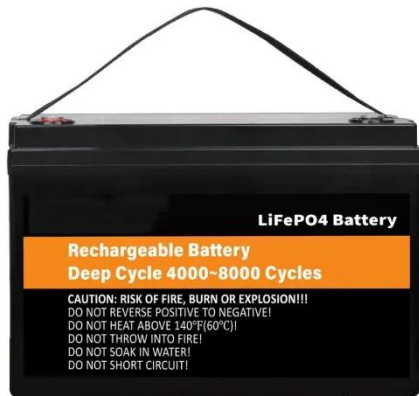

How do I Contact North American Energy Standards Board?

If you should encounter any problems or need further information, please call (713) 356-0060. Copyright © 2025 North American Energy Standards Board, Inc. All Rights Reserved. This material may not be reproduced in any form without permission.

What is Energy Star endorsement labeling?

The Energy Star endorsement labeling program—active in the United States and Canada, and under consideration in Mexico—is an example of a powerful market transformation tool that meets all of these criteria and can be used in conjunction with other programs.
