## Overview

---

### Need to run power outside?

The experts at Mr. Electric can help. Learn more about how to safely run power outside so you're powered up when you need it.

For those in need of power outdoors for a short time, such as to trim your bushes, power a bounce house for your kid's birthday, or provide lighting for a party, an extension cord will get the job done for a day or two. Be certain to only use extension cords.

For lighting, lawn tools used on the regular, or outbuilding power needs, you need a permanent power solution for safety, whether that involve an outdoor outlet addition to.

When running power outside, a GFCI-equipped outlet ensures safety, and is required by code in all areas exposed to moisture, like the outdoors. When adding an outdoor outlet, be sure to choose an outdoor-rated, weatherproof model with built-in, high.

### How do you bring power outside?

One way to bring power outdoors is with back-to-back receptacles. Shut off power, pull out an indoor receptacle, and drill a locator hole through the wall to the outside. Was this page helpful?

.

### What is the Essential Guide to power supplies?

Download a wealth of technical information and expand your power supply knowledge. Your Essential Guide to Power Supplies is an easy reference guide for system designers. It's an invaluable resource when you're choosing and integrating power supplies and DC-DC converters.

### How to care for a power supply?

To care for a power supply, it's important to keep it clean and dust free. The

power supply itself does not require much maintenance, but the cables and casing are the components that users will handle. The average user has no need to mess with its parts.

How do I choose an outdoor outlet?

When choosing an outdoor outlet, be sure to select an outdoor-rated and weatherproof model with built-in, high-sensitivity GFCI. All exterior outlets should have spring-loaded covers to protect them from weather, pests, and most importantly, moisture.

Is a permanent power outlet necessary?

For lighting, lawn tools used on a regular basis, or power needs for outbuildings, you need a permanent power solution for safety. This can involve an outdoor outlet addition to your home's main structure, or wiring run remotely to an outbuilding.

Do I need a GFCI outlet if I run power outside?

When running power outside, a GFCI-equipped outlet is required by code in all areas exposed to moisture, such as the outdoors, and ensures safety. When adding an outdoor outlet, be sure to choose an outdoor-rated, weatherproof model with built-in, high-sensitivity GFCI.
