

## SolarMax Energy Systems

# Outdoor photovoltaic dual-frequency base station

## Overview

---

What is Damm bs422 outdoor base station?

This technology-independent solution features multiple carriers as well as simulcast in one box within either UHF or VHF frequency ranges. The DAMM BS422 Outdoor Base Station features multi-technology, multi-carriers, multi-frequency and simulcast and is core-connected, eliminating the need for any bridges or internal gateways.

What is a Multitech outdoor base station bs422?

MultiTech Outdoor Base Station BS422 Designed with flexibility, fast deployment and operational simplicity in mind, just power on our multi technology infrastructure to start delivering reliable and secure communications. Get support The DAMM MultiTech Outdoor Base Station BS422 delivers maximum uptime for any radio network.

Can Damm bs421 be integrated into a single-Tech Network?

It is also possible to seamlessly integrate it into any existing DAMM single-tech network, consisting of DAMM BS421 outdoor and / or DAMM BS418 indoor base stations. In open rural areas, users can save on infrastructure costs by using VHF frequencies to obtain the same coverage as UHF with fewer base stations.

Why should you choose a bs422 solar power system?

tion.Eco-friendly and cost efficientOffering extremely low power consumption, the BS422 reduces operating expenses significantly. Its minimal heat generation eliminates the need for external power or cooling units, reducing system costs and simplifying maintenance. Additionally, the BS422 is solar power compatible, further lowering enviro
