Outdoor power supply output capacity

Overview

What is outdoor large-capacity portable power supply?

Due to its small size, large capacity, and mobility, the outdoor large-capacity portable power supply is equivalent to a large-scale portable charging treasure for people who work outdoors. It can be used in emergency rescue, emergency power supply, backup power supply, and other use scenarios.

What is a large capacity portable power supply?

The outdoor large-capacity portable power supply has a power output of 220V/500W/1000W/1500W/2000W/3000W, but a large power means larger capacity support, and a large capacity means excellent quality. Take the capacity battery 6000wh as an example, the basic weight is close to 45KG, which is no longer “portable”.

What are the output capacities of the majorpower power supply?

Output capacities are 10 amp and 20 amp configurations. DC battery systems. Power supply includes an integrated 20 amp output circuit standard. filtered DC output, capable for direct to load configurations. The Majorpower user adjustable voltage settings from 85VDC - 157VDC. probes for proper battery charging.
