

SolarMax Energy Systems

Outdoor power supply with the highest power consumption

Overview

What is a good universal power supply?

STM MLC70 is one of the most compact universal power supplies, capable of delivering an output power of up to 70 W. It comes with an adapter featuring a USB Type-C connector, allowing you to charge not only laptops but also any compatible electronics and peripherals.

How much power can a Philips Hue outdoor power supply withstand?

The bottom line is that the maximum power is a little more than 70 watts, much more than the 40 watt power supply from Philips Hue should be able to withstand. But with a measuring device I was able to make interesting findings. The outdoor power supply seems to have enough reserves.

What if I overload A 40W PSU?

Signify leaves us with the following knowledge in a statement: Power consumption levels indicated for products are based on max power, which is at 4000K white light and full brightness. When overloading the 40W PSU (>40W), it will affect performance (flickering & lifetime). When used like this warranty will not apply
