PV module transaction price

Overview

While most module makers have raised offers to above RMB 0.70/W, and reflected these in bidding processes, spot transactions for leading players are still hovering around RMB 0.68/W. How much does a PV module cost in China?

According to price analysis firm InfoLink: “Since March, the spot price of n-type modules in China has soared from RMB0.7/W to RMB0.73/W. Quotes from leading manufacturers are approaching the RMB0.75/W mark.” The results of the China Datang Group’s 2025-2026 PV module framework. Image: Datang.

What is the PV module price index?

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the EnergyBin exchange.

How much will PV modules cost in 2025?

On 11 March 2025, the results of the China Datang Group’s 2025-2026 PV module framework purchase tender were announced, with the spot price of n-type modules increasing from RMB0.7/W (US\$0.097/W) to RMB0.73/W (US\$0.1/W), and some modules priced as high as RMB0.75/W (US\$0.11/W).

Do PV modules lose resale value?

For historical secondary market PV module pricing from 2020 through 2023, download the 2023 PV Module Price Index from EnergyBin’s Resources portal. Overall, the price index shows that new PV modules don’t tend to lose resale value in the U.S. secondary market unless their technology is older, such as Legacy POLY modules.

How does pvxchange differentiate between the main technologies available on the market?

In doing so, we differentiate between the main technologies available on the market. Since 2009, pvXchange has provided a unique price index for the

European market, which has become an invaluable industry tool. Today, it is hard to imagine the industry without our price index, trend data, and in-depth analysis and commentary.

How much does a resale solar module cost?

For example, N-Type modules by REC listed for resale in May and July pushed up weighted average prices to \$0.411 and \$0.460 respectively. P-Type modules in September increased to \$0.311 as modules by Sirius PV, Solar4America, and Panasonic were remarketed. The same price increase was present in P-Type Bifacials for the month of December.
