Photovoltaic New Energy Storage Application in the Solomon Islands

Overview

How much will a solar PV project cost in Solomon Islands?

Component 3: US\$ 2.5 million is allocated to add grid-connected solar power to contribute to the overall share of renewable energy in Solomon Islands' energy mix.

Who is financing a solar energy project in the Solomon Islands?

The Asian Development Bank, Saudi Fund for Development, and Solomon Power are all financing the project. A project is now underway on the Solomon Islands to help the country accelerate its renewable energy generation.

Can a solar PV system boost economic growth in the Solomon Islands?

A pilot business model for rooftop solar PV systems will also be trialled at two schools in the country. Shane Rosenthal, ADB's Pacific liaison and coordination office regional director, believes that upscaling renewable energy generation in the Solomon Islands could help unlock economic growth and prosperity.

What percentage of the Solomon Islands' electricity mix is renewable?

Renewable energy only makes up 2% of the Solomon Islands' electricity mix. Image: Namkoo Solar. A group of investment firms led by the Asian Development Bank (ADB) has partnered with the government of the Solomon Islands to finance new solar PV power plants, increase rooftop solar PV installations and support the islands' power sector reforms.

Can photovoltaics be used for rural electrification in the Solomon Islands?

The success of the Sukiki project in the Solomon Islands, where photovoltaics are used for rural electrification, has brought delight to the government and people. They hope that continued use of photovoltaics for rural electrification will serve as a beacon of hope, not just for the Solomons but for the rest of the world as well.

Why is the power supply in the Solomon Islands so volatile?

Currently, most of the power in the Solomon Islands is dependent on diesel generated power which uses imported fuel. This volatile energy supply structure is susceptible to soaring fuel prices, and the people want it to be rectified as soon as possible.
