

## **SolarMax Energy Systems**

# **Photovoltaic standalone system inverter standard**

## Overview

---

The complete standard can be purchased from IEEE at <https://standards.ieee.org/findstds/standard/1562-2007.html> IEEE 1562:2007 is the only industry standard for sizing a photovoltaic array and batteries in a system where the solar array is the only charging source.

## Stand-Alone Photovoltaic System

Various power generators can be connected to the stand-alone power grid: PV plants with inverters, wind turbines

Our Lifepo4 batteries can be connected in parallel and in series for larger capacity and voltage.

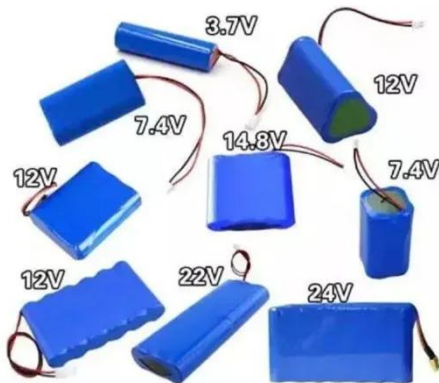

with wind inverters, hydroelectric power stations and diesel generators.
