Polish Solar Panel Procurement Project

Overview

How many solar projects have been approved in Poland?

Poland's Institute for Renewable Energy (IEO) says that building permits have been issued for nearly 1,500 solar projects totaling over 12.3 GW. Some of these projects may secure authorization in Poland's upcoming renewables auction, set for December.

Will solar projects enter Poland's upcoming renewables auction?

The IEO said these projects are prepared to enter Poland's forthcoming renewables auction, set for December. Auctions will run separately for installations with capacity up to 1 MW and with capacity of more than 1 MW. Last year's edition allocated 494 MW of solar across both channels.

What is the 2024 Polish auction system for renewables?

DWF's renewable energy team have prepared a guide on the 2024 Polish auction system for renewables. The guide is the result of collaboration with the Polish Photovoltaics Association, the newly established non-governmental organization aiming to support the development of large-scale solar energy in Poland as a clean energy source.

How much solar power does Poland have?

Figures from URE show that since Poland's renewables auctions began in 2016, more than 274 TWh of electricity worth almost PLN 67 billion has been contracted, with the vast majority covering newly designed installations. Poland added around 4.6 GW of solar in 2023, taking its cumulative installed capacity beyond 17 GW.

Which developers in Poland have the largest portfolios?

Developers Qair Polska, R.Power, and Lightsource Renewable Energy Poland are listed as the investors with the largest portfolios. The database features 1,495 projects with a total capacity over 12.3 GW that have been issued with

building permits. A total of 483 projects have been issued with permits this year.

When will solar projects start?

Most of the projects have received all permits and are scheduled to start construction in early 2025. Katja Wünschel, CEO RWE Renewables Europe & Australia: “31 solar projects awarded.
