# Portable Cart with Power Supply

## Overview

---

What is a computer cart?

With the power of a computer desk packed into a compact, mobile footprint, our computer carts increase productivity in healthcare offices and exam rooms, hotels, banks, and any industry. The Leader in Powered Carts and Portable Power Solutions. With our first pack and ship cart, we pioneered an industry.

Why should you choose power cart?

the best in the industry. Power Cart has a mobile cart for any industry or use. With over 20 Years of experience mobilizing the most challenging applications in any environment, PowerCart has various cart configurations to meet any application or industry.

How much power does an ergonomic cart provide?

This electric height-adjustable ergonomic station provides 8+ hours of power for a variety of devices in industries where worker comfort matters as much as improved efficiency. This economical cart solution offers an excellent price to performance ratio. Ideal for powering a laptop, barcode printer & scanner for up to 8 hours.

Why should you use a mobile cart?

Retail: Performing tasks at the point of activity saves time, improves accuracy and keeps sales personnel on the floor, ready to help your customers.  
Healthcare: Mobile carts can function as standard clinical documentation carts, laptop carts, medication workstations, dual monitor workstations or telehealth/telemedicine workstations.

Why should you buy a mobile computer cart?

Some feature hot-swap battery packs for unlimited uptime. Durability - Our mobile computer carts are built tough for industrial environments. The steel

frames and durable components withstand heavy daily use and can handle weights up to 200 lbs in some models. Receiving, shipping, pick/pack—there are tons of opportunities for savings.

Why do you need a POS cart?

These carts allow you to eliminate costly footsteps, print on-demand, and reduce labeling errors. They give employees continuous, full screen, real-time access to WMS, ERP, or ADC software anywhere in your facility. The integrated power system provides consistent, reliable run time for virtually any application requiring “portable power”.
