Portable battery cabinet customization

Overview

How to customize a battery enclosure?

Any flat side of the enclosure can be silk-screened with labels, warnings, serial number, company name, and logo. Engraving your battery enclosure is another customization method. Usually, about 0.005 inches or 0.010 inches of metal is removed from the surface. The requested symbol is basically scratched into the surface.

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

What is the best material for a battery enclosure?

Aluminum battery enclosures are highly popular for all designs of cabinets and cases because aluminum is lightweight. This material is especially good for battery enclosures exposed to solvents, petrochemicals, some acids, most sulfates and nitrates. There are also fiberglass battery enclosure boxes and plastic battery enclosures.

What are external battery racks & cabinet design encasing solutions?

Our External Battery Racks and Cabinet design encasing solutions are a premium brand that offer industry-standard features in custom design measurements at competitive pricing. They can accommodate various combinations of Batteries, up to maximum number of strings for complete battery ranges.

What is a wall-mounted battery enclosure?

Wall-mounted enclosures use mounting brackets, screws, and pads for

installation onto a wall. Wall-mounted battery enclosures are perfect for small devices in public places. Also, this design is the most common one for battery enclosures.

Can a battery be used without an enclosure?

Sealed batteries and modular battery cartridges can be used without an enclosure. If the room has controlled access, such as entry only by authorized employees, sealed batteries can be installed in open racks. However, if controlled access is lacking, batteries should be housed in lockable enclosures.
