Portugal container energy storage lithium battery factory

Overview

According to the latest report on February 21st, battery manufacturer CALB will invest 2 billion euros (approximately Yuan 15.1684 billion) in Sines, Portugal to build a lithium battery factory aimed at providing high-performance energy storage batteries for the European electric vehicle industry. Will a lithium battery factory be built in Portugal?

According to the latest report on February 21st, battery manufacturer CALB will invest 2 billion euros (approximately Yuan 15.1684 billion) in Sines, Portugal to build a lithium battery factory aimed at providing high-performance energy storage batteries for the European electric vehicle industry.

Will China invest €2B in Portugal to build a new lithium battery factory?

The Chinese company CALB has confirmed that it will invest €2Bn in Portugal to build a new lithium battery factory at Sines. The launch of the project took place today (Monday) in Lisbon and was attended by the President of the Board of CALB, Liu Jingyu and Portugal's Minister of the Economy, Pedro Reis.

Why should Portugal invest in a battery factory?

"Our factory will not only create new jobs but will also place Portugal at the forefront of the production of batteries for electric vehicles in Europe," he highlights. According to CALB, "this strategic investment" aims to "reinforce its presence in the European market for electric vehicles (EV) and energy storage systems (BESS)".

Will a new battery factory create new jobs in Portugal?

Our factory will not only create new jobs, but will also place Portugal at the forefront of the production of batteries for electric vehicles in Europe," said Liu Jingyu, chairman of the Board of Directors of CALB. Once operational, the plant will have a production capacity of 15 GWh of energy storage.

Can Portugal build a fully integrated lithium supply chain?

Alongside Spain, Portugal is leveraging its abundant lithium deposits to build a fully integrated supply chain, covering: Strengthening Europe's battery ecosystem by reducing reliance on Chinese manufacturers will enhance supply chain security and create a more resilient local production network for lithium-ion batteries.

Could a massive lithium battery project represent 4% of Portuguese GDP in 2028?

Massive project "could represent 4% of Portuguese GDP in 2028" The project by Chinese group CALB to build a mega lithium battery factory in Sines, which could represent 4% of Portuguese GDP in 2028, is being reconsidered, reports Jornal Económico. This could be a situation stemming from the decision to remove Huawei from the national 5G networks.
