

SolarMax Energy Systems

Portugal s photovoltaic energy storage investment

Overview

In July, the government announced a EUR-400-million (USD 464m) investment plan to strengthen grid management and expand national BESS capacity, which envisages an auction to be held for 750 MVA storage projects by January 2026. Why is Portugal launching a solar energy storage project?

This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of €99.75 million through a call for tenders to install energy storage projects totaling 500 MW.

What does Portugal's energy policy mean for the energy sector?

The Portuguese Ministry of Energy has allocated €100 million for grid flexibility and energy storage projects to be completed by the end of 2025. This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production.

Why is Portugal investing in solar battery storage?

Portugal is actively expanding its investment in solar battery storage, ensuring that homeowners will soon have more efficient ways to store and use their solar energy. Those who install solar panels today will be well-positioned to take advantage of these advancements in the near future. Learn about solar batteries in Algarve.

Does Portugal need energy storage?

From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production. To this end, the country's Ministry of Energy announced on Wednesday that it has allocated €99.75 million (\$107.6 million) in a bid to support 500 MW of energy storage projects.

How much will Portugal spend on energy storage & grid flexibility?

The Portuguese Ministry of Energy has allocated €99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025. From ESS News Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production.

How many battery projects are being built in Portugal?

Portuguese energy giant GALP has announced construction of five battery projects, with a total capacity of 74 megawatts (MW), to store solar energy in Spain and Portugal.
