Profitability of outdoor power supply

Overview

The global outdoor power supply market size was valued at approximately USD 2.78 billion in 2024 and is expected to reach USD 33.79 billion by 2033, growing at a compound annual growth rate (CAGR).

What is the global outdoor power equipment market size?

The global outdoor power equipment market size was estimated at USD 53.42 billion in 2024 and is projected to grow at a CAGR of 6.3% from 2025 to 2030. The market growth can be ascribed to the increasing demand for cordless outdoor power equipment as people are more inclined toward greater flexibility and portability.

Why is the maintenance cost of outdoor power equipment so high?

The factors to be reviewed regularly include inspecting cords, checking for damaged switches, sharpening, oiling, and other repairs needed for properly working the equipment. Hence, the maintenance cost of outdoor power equipment is relatively high, which is expected to hamper the market's growth.

Why is the North America outdoor power equipment market growing?

The North America outdoor power equipment industry accounted for 35.28% of the global overall market share in 2024. The regional market's growth is attributed to North America's larger geographical area compared to its population, which leads to more gardens and lawns in the region.

Why is outdoor power equipment so popular?

The current trends of remote and hybrid working models, as well as flexible working hours among businesses in the U.S., have ensured that people have more free time on their hands to indulge in gardening and landscaping, thus strengthening the U.S. market demand for outdoor power equipment.

Who makes outdoor power equipment?

The U.S. market for outdoor power equipment is populated with several global

and country manufacturers, leading to a high frequency of product launches. For instance, in February 2023, Ariens, a brand of AriensCo, launched the RAZOR walk-behind mower.

Is there a threat to outdoor power equipment?

The threat of substitutes is very low, as outdoor power equipment are undergoing technological developments to further improve their functioning and efficiency. The end-user base is significantly large, consisting of both households and commercial establishments.
