## Overview

---

What kind of cabinet should I use in an outdoor kitchen?

Speak with a Design Expert to bring your outdoor living dreams to life! What Kind of Cabinets to Use in an Outdoor Kitchen?

Popular outdoor kitchen cabinet options include HDPE, powder-coated stainless steel, powder-coated aluminum, and polished stainless steel. The only material we'd outright advise against using is wood.

What are the best outdoor BBQ cabinets?

Thor's outdoor BBQ cabinets are undeniably the most functional straight out of the box. Each module comes equipped with Thor's own outdoor kitchen appliances and stainless steel countertops. While this does make for limited customization.

Are outdoor kitchen cabinets waterproof?

Wood is by far the easiest material to work with for DIY outdoor kitchen cabinets. Wood is moderately inexpensive. Wood outdoor kitchen cabinets have poor weather resistance. Since these aren't waterproof outdoor kitchen cabinets, you'll quickly find yourself dealing with cracking, warping, swelling, rotting, or fading (or all of the above).

What are the Best Metal cabinets for outdoor kitchens?

Let's talk about metal cabinets for outdoor kitchens. Powder-coated stainless steel cabinets are quite common for outdoor use. These are stainless steel cabinets with a dry powder fused to the surface to provide some extra durability. 304 stainless steel outdoor cabinets are the best option.

Are outdoor kitchen cabinets combustible?

Popular outdoor kitchen cabinet options include HDPE, powder-coated stainless steel, powder-coated aluminum, and polished stainless steel. The

only material we'd outright advise against using is wood. This will rot, swell, warp, crack, and fade when left in the open air. Not to mention, it's combustible.

Which stainless steel outdoor cabinets are best?

304 stainless steel outdoor cabinets are the best option. This grade of steel is highly resistant to corrosion and rust. On the flip side, avoid cabinets constructed with 201 or 430 stainless steel. These don't have great weather resistance, and are more prone to rust and corrosion.
