

SolarMax Energy Systems

Rooftop photovoltaic panel custom manufacturer

Overview

What are solar panels for roofing?

Solar panels for roofing are engineered and manufactured in a manner to fit existing mounting solutions or adapted to your fixation system. We manufacture extensive variety of custom BIPV solar panels in size, shape, color, transparency and efficiency. All our PV products can be produced with full or cut solar cells as per demand.

Why should you choose metsolar solar panels for roofing?

Different module design variations, provided by Metsolar are used when complete fusion of solar glass and building is required. Solar panels for roofing are engineered and manufactured in a manner to fit existing mounting solutions or adapted to your fixation system.

How can BIPV help you develop a custom solar solution?

Being one of the most flexible manufacturers of PV products – our company will professionally help you develop a custom solar solution through all stages of your project. From idea and prototype to series production. Solar cladding and façades are one of the most widely used BIPV solutions.
