

SolarMax Energy Systems

Rooftop solar systems in the Gambia

Overview

How many PV systems will be installed in Gambia?

Gambia's Sustainable Energy Services Company is launching a tender to install 1,100 PV systems, ranging from 2 kW to 240 kW in size, on 1,000 schools and 99 health facilities.

What is the energy system in Gambia?

The Gambian electricity network mainly consists of minigrids that the government hopes to improve by transforming into hybrid minigrids, integrated with renewable energy generation capacity. With an electricity access rate of just 35%, Gambia introduced the Renewable Energy Act to promote clean energy in 2013.

How much solar power does Gambia have in 2022?

According to the International Renewable Energy Agency (IRENA), Gambia only had 2 MW of installed PV capacity at the end of 2022. Gambian utility Nawec recently started building a 23 MW solar project in Jambur, in Gambia's West Coast Region.

What is the energy access rate in Gambia?

With an electricity access rate of just 35%, Gambia introduced the Renewable Energy Act to promote clean energy in 2013. This content is protected by copyright and may not be reused.
