# Russian 12v lithium battery pack factory

## Overview

---

Will Russia build a lithium battery factory in 2025?

Russian nuclear energy giant Rosatom has acquired a 49% stake in Enertech International, a South Korean lithium-ion battery specialist, and has announced plans to build a gigafactory at an unspecified location in Russia. The start of production is scheduled for 2025.

How many lithium batteries will Liotech produce a year?

The large manufacturing facility referred to as Liotech is expected to produce up to 500,000 lithium batteries per year. The expectation is for the plant to produce lithium batteries to supply electric vehicles and larger bus batteries, in addition to a variety of energy storage applications, and emergency power supplies.

Who is interested in Liotech lithium batteries?

Chief Executive Officer of Liotech Alexander Erokhin indicated that the company has seen interest in Liotech lithium batteries from businesses in the Russian military industrial complex, the public utilities, electric power networks, telecommunications, and public transportation companies. High technology innovation.

Are Liotech batteries safe?

These characteristics give Liotech batteries uninterruptible power supply. Additionally, after their use in electric batteries for the electric-power industry. Use of these types of batteries is absolutely safe for the environment. Liotech's products. Prime customer MOBEL has already concluded a three-billion-ruble contract for batteries.
