Samoa Electric New Energy Storage

Overview

Samoa, a Pacific paradise where coconut trees outnumber traffic lights, is making waves in the energy sector. The island nation's new energy storage power station isn't just about keeping the lights on—it's rewriting the rules of energy independence for small island states. Who is evlo energy storage?

EVLO Energy Storage, a fully integrated battery energy storage systems (BESS) provider and wholly owned subsidiary of Hydro-Québec, on April 15 announced the company has completed commissioning of a 4-MW/8-MWh, 2-hour duration energy storage system, the first of three projects in American Samoa.

How much does electricity cost in American Samoa?

Electricity prices in American Samoa vary with world petroleum prices. In 2023, the territory's average electricity price was 43 cents per kilowatthour, about 3.5 times higher than the U.S. average. Last Updated: April 17, 2025 American Samoa depends on petroleum imports for almost all its energy needs.

Does Samoa have electricity?

Electricity in Samoa is generated from diesel and renewable sources, including biomass, solar, and wind energy. Here's all you need to know about Samoa plug, power outlets, travel adapter needed for sockets, electricity voltage, and frequency.

Why should American Samoa invest in solar energy?

Positioned less than 1,000 miles south of the equator, American Samoa is uniquely positioned to harness its abundant solar energy resources. BESS projects will be critical for American Samoa to achieve its renewable energy goals by maximizing solar utilization, reducing dependence on imported fuels, and ensuring a safe, reliable grid.

Why did the American Samoa power authority choose eastern power

solutions?

The American Samoa Power Authority selected Eastern Power Solutions with the EVLO 1000 BESS to enhance the delivery of safe, reliable, and clean power to the local community. ASPA is a development-oriented public utility providing electricity, water, wastewater, and solid waste services to about 50,000 residents.

Why are Tesla specialists assisting Samoa's Electric Power Corporation engineers?

Tesla specialists are on the ground assisting Samoa's electric power corporation engineers to ensure its battery energy storage systems are operating to support Samoa's energy needs during the current power crisis.
