

# **SolarMax Energy Systems**

# Saudi Arabia energy storage power station revenue

#### **Overview**

Market analysis reveals that the energy storage sector in Saudi Arabia generated \$197.6 million in revenue in 2023, with expectations to soar to \$1.693 billion by 2030. This represents a compound annual growth rate (CAGR) of 35.9% from 2024 to 2030. How big is Saudi Arabia's power generation market?

According to Mordor Intelligence, the Saudi Arabia power generation market is expected to grow from 83 gigawatt in 2023 to 110.03 gigawatt by 2028, at a CAGR of 5.80% during the forecast period (2023-2028). The Ministry of Energy's spending on power and renewable energy projects is expected to reach \$293 billion by 2030.

How many GWh of energy storage will Saudi Arabia have by 2025?

Projections indicate that Saudi Arabia aims to operate 8 GWh of energy storage projects by 2025 and 22 GWh by 2026, positioning the nation as the third-largest global market for energy storage, following China and the United States.

Is Saudi Arabia a leader in battery energy storage?

The Kingdom enters the top ten global rankings for battery energy storage with ambitious future capacity goals. Saudi Arabia is establishing itself as a significant player in the energy storage sector, now ranked among the top ten global markets for battery energy storage.

Will Saudi Arabia develop a storage capacity of 48 gigawatt-hours?

Under the National Renewable Energy Program, which is overseen by the Ministry of Energy, Saudi Arabia aims to develop a total storage capacity of 48 gigawatt-hours by 2030. To date, projects totaling 26 gigawatt-hours have been tendered and are currently in various phases of development.

How is Saudi Arabia transforming its energy sector?

Saudi Arabia's energy sector is undergoing a comprehensive transformation, reinforcing its leadership position in the production and export of a variety of energy forms. By the end of 2024, it is projected that the total capacity of renewable energy projects across all stages of development will reach 44.1 GW.

What does Saudi Vision 2030 mean for energy production?

The goals outlined in the Saudi Vision 2030 initiative are aligned with this ambitious energy production strategy. The Kingdom plans to operate 8 GWh of energy storage projects by 2025, expanding this to 22 GWh by 2026, which would place it as the third-largest global market for energy storage, following China and the United States.
