

## SolarMax Energy Systems

# Self-use rooftop solar panel photovoltaic power inverter

## Overview

---

To recap, there are three kinds of inverters: string inverters, microinverters, and power optimizers. They all transform the power your solar panels generate from direct current (DC) to alternating current (AC). Th.

### PV Inverter: Understanding Photovoltaic Inverters

A photovoltaic panel contains photovoltaic cells that convert solar energy into electricity. These cells, made of semiconductors like silicon, form solar modules.
