

SolarMax Energy Systems

Serbia photovoltaic plant energy storage battery

Overview

The Serbian government has called for the development of a spatial plan for six large-scale solar plants with a cumulative capacity of 1 GW that will be colocated with two-hour battery energy storage systems with a power output of at least 200 MW.

Serbia photovoltaic plant energy storage battery

Serbia reveals sites for PV plants of 1 GW in total with batteries

Serbia is preparing a spatial plan for six solar power plants with battery storage within a strategic partnership, for which it selected Hyundai Engineering and UGT Renewables.
