

SolarMax Energy Systems

Small liquid flow battery

Overview

Researchers in Australia have created a new kind of water-based “flow battery” that could transform how households store rooftop solar energy. Credit: Stock Monash scientists designed a fast, safe liquid battery for home solar. The system could outperform expensive lithium-ion options.

Small liquid flow battery

New liquid battery could break solar storage barrier for Aussie

...

Their next-generation "flow battery" opens the door to compact, high-performance battery systems for homes, and is expected to be much cheaper than current \$10,000 lithium ...
