Solar PV site cost prices in Botswana

Overview

What is Solar City Botswana?

Solar City Botswana (Pty) Ltd was established in 2016 to source and develop renewable energy projects for borehole, irrigation systems, residential, and commercial solar photovoltaic markets. Home - Solar City Botswana The home of quality Solar Products +267-3118-908 About Us.

How much does solar PV cost in Africa?

On-grid commissioned and planned utility-scale solar PV projects between 2014 and 2018 in Africa range from around USD 1.2 to USD 4.9/W (USD 1 200 to 4 900/kW). Although Africa is currently home to a very small set of utility-scale solar PV projects, costs have been declining over time.

Which solar still is best suited for Botswana?

After years of research and development activities, the RIIC findings concluded that the Mexican and brick solar stills are the best suited for application in Botswana. The Mexican still consists of a moulded fibreglass basin of 1.6 m² base area to hold saline water and has gutters on two sides to collect the distillate.
